Eye-catching, affordable and easy  
to install pitched PVC-U skylights

*All together better*

**skypod®**

## PITCHED PVC-U SKYLIGHTS

There are lots of ways to add light to buildings, but none are as stylish as Skypod pitched PVC-U skylights

### **Impress customers and end-users with desirable, space-enhancing skylights**

The Eurocell Skypod pitched skylight system enables you to create an eye-catching, contemporary feature that floods the interior of a property with natural light. It brings life and freshness to uninspiring flat-roofed buildings, and makes a stunning alternative to conventional conservatory roofs.

Skypod skylights add height, light and volume to any living space. They are the perfect choice for a wide range of refurbishment, extension or new-build projects – including reception areas, classrooms, orangeries, kitchen-diners and garage conversions.

### **Affordable, energy efficient and attractive – the perfect alternative to aluminium**

Eurocell designed Skypod as an affordable alternative to aluminium skylights, making it accessible for more applications, to more people. As well as value issues, the 'industrial' aesthetic of aluminium skylights is unsuited to many properties and not to everyone's taste.

Skypod offers significant energy-efficiency improvements, with a U-value as low as 1.0\* – helping your customers to save on their energy bills. The PVC-U frames also help homeowners to match the appearance of their skylight to existing PVC-U windows and doors.

## WHY CHOOSE SKYPOD?

**Designed for  
superior performance**

**Fast, accurate  
installation**

**U-values as  
low as 1.0\***

**Fixed  
20° pitch**

**A choice of  
frame and  
glass colours**

**Cheaper than  
aluminium  
alternatives**

**Kits delivered in  
5 working days**

**10-year  
guarantee**

The architectural design means there are no fussy crests or finials to fit, giving your customers the ultimate in clean sight-lines. A unique ridge end cover cap completes the sleek appearance.

### **Create skylights of any size, up to 2.75m x 7.75m**

Skypod is available in a wide range of sizes, so you can create a skylight that's suitable for any project. It also comes in a choice of two-bar or three-bar pitched gable ends. The two-bar option offers cleaner, unobstructed sight lines in sizes up to 1.5m x 6.5m, while the extra strength and rigidity of the three-bar option enables you to create much larger skylights of up to 2.75m x 7.75m.

### **Simple, fast installation – for a quality-assured finish on every job**

Crucially, Skypod has been designed for fast, accurate, simple installation. It requires only square cuts, with no

mitring or awkward angles to negotiate, and all screw holes are pre-drilled. This enables installers to give customers a precision-fitted watertight skylight, while making the job as quick and easy as possible.

### **Delivered in five working days**

Once the site has been surveyed and measurements taken, you can order your bespoke Skypod roof from any of the 130+ Eurocell branches across the UK. Your complete ready-to-install kit, including all screws and fixings, will be delivered to the branch in five working days. You can then either collect it yourself or arrange for free delivery direct to your site\*\*.

### **Complete the job**

All the tools and sealants you need to install your skylight to the highest standard are available from your local Eurocell branch, so you can pick up everything you need when you collect your Skypod. It's important to use a sealant that is compatible with self-cleaning glass, and we recommend Soudal SMX 506.

\* Standard U-value is 1.2. U-value is applicable to glass only.

\*\* Free delivery applies to orders over £100 and deliveries to mainland UK only, excluding Northern Scotland.

EXCEPTIONAL STYLE & PERFORMANCE

## Colours to frame the view

Like all Eurocell PVC-U products, Skypod comes with an exact colour-match guarantee. That means the colour is precisely matched to all Eurocell window, door and conservatory roof products, creating a co-ordinated, consistent look across any property.

Skypod has a white internal finish as standard, to maintain a bright, fresh interior. A range of external colours is available to complement existing architectural style, as well as a choice of glass options.

## Ten-year guarantee

Skypod skylights are guaranteed for ten years. That means you can give your customers the assurance of a robust, well-designed, precision-made product that's built to last – manufactured by the UK's leading PVC-U specialist.
